

Date: March 24, 2000

To: Mr. Howard Nixon, Fort Worth, TX

Subject: Texas A&M University Analysis
of Golden Particles

From: Max Greiner, Jr.

Dear Mr. Nixon,

My wife called me from my home in Texas to notify me that you sent a critical letter about me to the president of Texas A&M University (TAMU) which stated:

“Mr. Greiner through TBN has used Dr. Hajash and Texas A&M’s prestige and standing in the academic world to further a farce - a scam, to indirectly enhance donations to TBN and make the statues he carves more valuable.”

Mr. Nixon, I’m sorry you have chosen to slander my reputation and good relationship with TAMU, without any documentation on your part to substantiate your critical accusations. Because you have done this, I must respond, in an effort to clear my name with TAMU, and the larger body of Christ, with whom I associate.

First, Mr. Nixon, the reason I did not answer your 2/1/2000 original letter and request for the TAMU scientific analysis of the golden particles is simply because I have been out of town, two out of the last three months, and my father died during this time. I am writing you now from my art foundry in Wyoming where I am currently creating a new composition called “The Coming King,” which depicts Jesus Christ returning in glory on a white horse (Revelation 19:11). I literally receive hundreds of letters, faxes, emails and telephone calls from around the world, and I am not able to answer all of them personally. Your original letter was passed on to me by my office for a personal response, which I was not able to deal with until now. I apologize for this delay.

Mr. Nixon, I am not a fraud, or instigating a “farce or scam,” as you claim. The miracle I have described publicly in numerous interviews is real. The tiny golden particles, examined by TAMU scientists are genuine and are being supernaturally created “out of thin air,” in front of witnesses by the God of the Bible, the creator of the universe. They are tangible “matter” of some type, which was clearly verified by Dr. Andrew Hajash, Jr., professor and Department Head of the TAMU College of Geology and Geophysics. He told me over the telephone that samples #1 and #2 were “created particles, not naturally occurring.” Dr. Hajash, who is not a believer in God, said this before I revealed to him the supernatural manner in which these golden particles came into existence. These particles have been materializing in front of our eyes for over a year now, as we pray for people and lift up the name of Jesus Christ, who is God.

This phenomenon is not unique to us. For the last two years it has been occurring around the world to "Born Again" Christians of all denominations, as Jesus Christ is honored. This amazing miracle started in 1998 in the USA with a Pentecostal lady named Ruth Ward Heflin (www.revivalglory.org) of Virginia, and then to Dr. Bob Shattles (www.fireandglory.org), a Southern Baptist pastor from Georgia. God is sovereignly working this miracle as He pleases, through His children, to let non-believers know that God is real, and that the only way to heaven and salvation from hell is through His son, Jesus Christ.

God first began this miracle in our lives back in March of 1999, as I prayed for God's intervention in our lives. I was not praying for "gold dust," but only for God's help. To our amazement, we discovered hundreds of tiny golden particles began to form on the floor, wall, door, door frame and counter in an unfinished bathroom in my studio, where I pray.

The manifestation moved to other rooms of my studio where I was working on my new sculpture, "The Coming King." It then went to my wife, daughter and me. This anointing of God now travels with us wherever we go and materializes on us, other people and things as we talk about Jesus Christ. We have no control over this manifestation, God places it on whom and whatever He pleases. To date, the Holy Spirit of God has materialized these tiny golden glory particles on probably 2000 people to whom we have personally witnessed to about Jesus. God is simply confirming His word, and the truth of our testimony with "signs and wonders." (2 Corinthians 12:12 & Mark 16:17-18) To our amazement, God is even putting this "glory dust" on people who sit next to us in church, at restaurants, at art shows, and on airplanes in flight. I have enclosed my testimony tape #23, which is of a church service I gave where God covered the congregation with this manifestation of His glory (Isaiah 60:1-5 & Psalm 45:13). Some people who have listened to this taped testimony have actually been covered with the golden glory dust, as they listened. It can happen to you if you listen to this tape.

Our family and other Christians are using this miracle to lead many people to salvation through faith in Christ. However, I must admit, as a fourth generation Southern Baptist, I am still amazed by this miracle every time it is repeated in front of our eyes. It is also a great encouragement to those who already believe in God, a visible sign of His love.

This miracle can be seen, collected and tested by anyone, believer or non-believer alike. The particles remain where they are unless they are brushed off, or collected with tape. The particles materialize on skin, on clothing and on any object, anywhere at anytime. Most of the particles are very tiny, like dust, and are golden in color. However, some are larger and come in various colors. According to TAMU scientists, our particles are not actual gold, but rather a "plastic covered with a thin metalized coating." Dr. Hajash could not identify the exact plastic or the metal. I asked him, before he knew the source of the samples, why he called them "plastic." He said, "the analysis indicated an oil based, organic molecular structure." We know throughout the Bible, oil represents the Holy Spirit. "Plastic" is the only term a nonbelieving scientist can use to describe this substance. Another interesting observation was that the particles in sample #1, which were pulled off my studio bathroom door, were all perfectly square. In the Bible, the most holy place in the ancient temple of God was square (1 Kings 6:19-20); and at the end of time, the

“New Jerusalem” will come down out of the sky, and its shape will be based on the square (Revelation 21:15-16).

Sample #2 was collected on July 18, 1999 in Port Arthur, Texas. A large $\frac{3}{32}$ ” particle formed on my wife’s neck, among dozens of tiny particles, as we witnessed about Jesus to her Roman Catholic relatives. This golden particle had an irregular, rectangular shape.

On October 12, 1999 I was sitting at my sculpture desk carving the $\frac{1}{6}$ life size original wax sculpture of “The Coming King” when God instantly, in front of my eyes, turned the hoof of the horse to a golden color in my hands! In amazement I put on my jeweler’s magnifying goggles and discovered my wax sculpture, desk and every square inch of my clothing and skin was covered with thousands of tiny golden particles. I sat there stunned with tears in my eyes as God then spoke into my heart with is “still, small voice.” I saved in plastic bags, the shirt, pants and shoes I was wearing that night, as evidence, and as “witnessing tools.” These items, covered inside and out with golden particles, are available for anyone to see.

Since 1976, I have faithfully documented and verified all the many miracles God has worked in our lives, by every means possible. This has been done so I could provide an honest and accurate testimony about God. We now have 23 ninety minute audio tapes describing hundreds of miracles. This commitment to witnessing truth is why I asked TAMU to test the particles, to verify their existence and determine their composition.

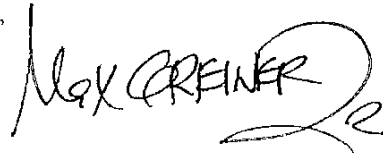

We had no doubt, the golden particles were created supernaturally. We also easily determined they were from God and not Satan by applying the simple scriptural test Jesus instructs all Christians to make, when trying to determine if a miracle or person is from God or not. He said for us to “test the fruit” (Galatians 5:22-23 & John 4:1-3), and to “test the root” (John 15:1-8). The “fruit” is good if lives are changed in a positive way and if people are being directed to Jesus. The “root” is good if the source of the miracle or person is Jesus Christ. This miracle passes both tests because the miracle occurs when Jesus Christ is honored and lifted up by His children, and thousands are coming to Christ through this miracle. Yes, Satan will probably try to counterfeit, pollute and discredit this miracle, and those who witness it. However, Jesus said we should expect to be ridiculed for our testimony, because He was ridiculed (Matthew 5:11-12).

Mr. Nixon, I can promise you, TAMU and the body of Christ at large, that what I have said is the truth. The golden dust manifestation is real. I welcome any scientific examination of this phenomenon because it is real, and I have nothing to hide. I am only witnessing to the truth, as a servant of God. He has called me to lift up Jesus Christ to the world, through my artwork and testimony, so others might know Him as Savior (John 3:16), rather than Judge (Hebrews 10:30-31).

God has, for some reason, given me and TAMU the distinct privilege of examining this substance, supernaturally created in an instant, when the name of God is mentioned. If what I have said is true, and it is, I believe this substance could ultimately be recognized as the most significant scientific discovery in the history of the world. We are literally able to scientifically examine physical matter from another dimension. All scientists and people who care about pursuing the

truth wherever it leads, should examine this evidence. The facts clearly point to the creator of the universe. The implications of this are enormous to the scientific community, who for the most part, deny the existence of God. If there is a creator, there is no evolution. As I wrote the original draft of this letter to you, God covered my hands with the tiny golden particles. He wants the world to know, Jesus is coming back and we'd better be ready. I hope this explanation and enclosed materials will answer all the questions you have. Also, Mr. Nixon, as a Christian we are required to forgive those who hurt us, therefore, I forgive you.

Sincerely,

A handwritten signature in black ink that reads "Max GREINER Jr". The signature is written in a cursive style with a large, stylized "R" at the end.
